ENCOURAGING THE WELL-BEING AND RECOVERY OF MEDICAL PROFESSIONALS THROUGH COMPASSION, SUPPORT, ACCOUNTABILITY AND ADVOCACY.

NCPHP OFFERS
- Confidential program participation
- Free screening interviews for licensees or registrants of the NCMB, NCBOP, or NCVMB
- Comprehensive monitoring
- Compassionate support
- Evidence-based advocacy

FINANCIAL ASSISTANCE
A treatment scholarship fund is available for licensees of the NCMB to help with the costs associated with assessment or treatment. In addition, the Michael Wilkerson Family Assistance Fund provides financial support for family members who need help participating in the treatment process.

REFERRALS
Traditionally, about half of NCPHP’s referrals come from hospitals, colleagues, medical practices, friends and family, or even the provider themselves. The remainder come from licensure boards. Due to the sensitive nature of our work, all NCPHP services are provided under the strictest anonymity and confidentiality afforded by the law.

SUPPORT
NCPHP is supported by the North Carolina Medical Board, North Carolina Medical Society, North Carolina Academy of Physician Assistants, North Carolina Hospital Association, North Carolina Board of Pharmacy, North Carolina Veterinary Medical Board, and North Carolina Veterinary Medical Association.

TESTIMONIAL OF A PAST NCPHP PARTICIPANT
“I did not graduate most outstanding student of my class with the endeavor of becoming an alcoholic and an addict. As time went on, I perceived myself entitled to practice medicine until I was no longer able to practice medicine. When I finally hit bottom and asked for help, the NCPHP was there to assist me where few others were willing or able to do so.

Having experienced several PHP programs, I can honestly say that the NCPHP is one of the most empathetic and understanding in advocating for the recovery and reentry into the practice of medicine of its clients. Their approach to client monitoring is unique with regard to personal accountability while at the same time empowering and encouraging one to grow. My life today far exceeds what I could have imagined when I first entered recovery. I’m working in a thriving practice with wonderful staff and patients. I am a loving and engaging husband and father.

Today as a result of the help of the NCPHP, their encouragement and advocacy as well as a solid 12-step program, I am able to be a healthy and productive provider, and most importantly of all, to comprehend the word serenity and finally experience peace.”

Let us help take care of you so you can help take care of patients!
NCPHP IS HERE TO HELP!

We assist medical providers with the following issues:
- Substance use disorders
- Mental health issues such as depression or anxiety
- Burnout
- Communication issues

NCPHP has been helping medical professionals for over 25 years. Our knowledge and expertise enables NCPHP to advocate for participants to their employers, partners, hospitals, insurance panels, and licensure boards (NCMB, NCBOP, or NCVMB). Our goal is to help NCPHP participants develop and maintain a healthy and recovery-focused lifestyle that supports their safe return to practice.

We are the only North Carolina organization that provides access to non-disciplinary and confidential programs for identification, intervention, and rehabilitation of potentially impairing issues for licensees of the NCMB, NCBOP or NCVMB.

“I am able...to comprehend the word serenity...”

“I finally hit bottom and asked for help...”

HOW TO RECOGNIZE WHEN TO CONTACT NCPHP

SIGNS AND SYMPTOMS OF WORK-RELATED BURNOUT
Have you noticed any of these warning signs in yourself or a colleague?
- Feeling tired and drained most of the time
- Changes in appetite or sleep habits
- Feeling helpless, trapped, and defeated in the workplace
- Increasingly cynical and negative outlook on work
- Procrastinating; losing motivation on the job
- Decreasing work satisfaction and sense of accomplishment
- Withdrawing from responsibilities; skipping work or coming in late and leaving early
- Using food, drugs, or alcohol to cope

Note: These may be symptoms of other conditions as well.

“...empowering and encouraging one to grow.”

Substance use and mental health disorders impact more than just the person suffering from the issue; there is a ripple effect that permeates through every facet of that person’s life. Spouses, children, colleagues, partners, and even patients can all suffer negative effects. Many times people suffering from substance or mental health issues or burnout feel alone and think they are only hurting themselves. This is simply not the case.
